Rt. 8, Frederick, Md. 21701

2/10/67

Dear Barry,

Thanks for your letter of the 6th, which arrived yesterday.

If you have any of the publicity material, anything besides the pictures, I'd like the same number of copies of that. I will want to send a copy to the paper who will try and see the one I will interviewed, and be sure to get it.

I am not not certain when I will get to New Orleans. If you do not send this by Tuesday or Wednesday of the coming week, please send one copy to me c/o Louis Wolf, Office of the District Attorney, 2700 Tulane Ave., New Orleans, the other to my home.

It is not possible to estimate the length of the trial. I suppose I'll be there that last week plus a few days. I will give your message and report you are helping.

If you can find the time to work at the Archives, I suggest you work on the staff papers. Pick something that interests you or discuss it with Jerry. Offhand, I would say pick the Newell files, which should be among the largest and may well be loaded with crap. If you do, keep a record of every file and every document in it and please send me a copy of, if you can, two copies. They will be your typewriter you can use. I'll send a copy to Gary and one to a dozen of others who are doing similar work. Lease, in lieu of just making notes, get xeroxes of the interesting papers. We can then duplicate and distribute them. If you arrange in a week for what files you will want to go over on Saturday, they can be left in the search room for you.

Give me what else you may have on the Younblood 1961 Los Angeles arrest and I'll see if I can get it checked locally. Copy Archives butler, please.

Forget about Schum. I was in Dallas, had a long interview with him, on tape, and he was somewhat helpful. Sorry I can't go into it. Innocents are so terrified he did not even introduce them. I did not see them.

Thanks for everything. No, no suspect letters from N.O. They will not be mine.

Sincerely,

Harold Weisberg
